Skills

- **Software Testing**: Manual, Automation, API Testing and Database Testing
- **Testing Tools**: Selenium, TestNG, Postman, Rest Assured
- **Languages** : JAVA and SQL
- **DBMS** : MY SQL Server
- Manual test case preparation and Test implementation
- **OS**: Windows, Unix(Basic)
- **Defect tracking tools**: JIRA

Languages

- English
- Hindi
- Marathi
- Urdu

Work History

2022-23 Worked as a Software Quality Analyst in **Box Ventures PVT. LTD, Chennai (Internship)**

2023-24 Worked as a Software Tester in **Bahwan CyberTek Pvt Ltd, Chennai, Client (MAHA-IT, Mumbai)**

Education

2018-2021 Bachelor of Engineering (**SPPU– *Pune)***

Testing Skills

❖ Manual Testing

- Proficiency in Software Testing.
- Experience in **Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC).**
- **Test Plan, Test Scenario Identification, Test Case Design, Test Case Execution, Defect Reporting.**
- **Prepared Reports like Defect Reports, Test Summary Reports.**
- Well versed knowledge in **Defect Life Cycle**.
- Traceability Matrix using **Jira** Test Management Tool.
- Experience in writing **SQL Queries** against database for Data verification
- Having Hands on Experience of **API Testing tool Postman**.
- Well versed in Testing like in **Smoke Testing. Functional, Non-functional Testing, Regression Testing, Retesting, Database Testing, API Testing.**
- Solid Understanding of **Agile Scrum Methodology**.
- Hands on Experience in **UNIX commands** to check server status and response log file.

❖ Automation Testing

- Experience of Automation Testing Using **Selenium WebDriver**.
- Developed, executed and maintained automated test scripts.
- Have experienced in **Data Driven Framework (DDF).**
- Basic knowledge of **log4j, TestNG listeners, data Provider.**
- Experienced in **Handling Popups, List Box & Actions, TestNG & Annotations, designing POM (Page Object Model) classes.**
- To generate the **TestNG Report** for the executed Automation Test cases.

- Well understanding of **TestNG, POM classes, GitHub, Maven and Jenkin.**
- Performed Automation testing on **Cross Browser testing**.
- Knowledge of **Behavior driven framework (BDD) with cucumber.**
- Experience on **API Testing tools like Postman**.
- Having Knowledge of **Web Services, REST & API Testing**.
- Good in writing **SQL Queries** against database for data verification.

Projects

Project name: Eyefinity Practice management
Domain Name: Health Care Domain

- **Roles and Responsibilities**

- Prepare Test Cases, Execute Test Cases, log defect in Jira Management tool.
- Prepare Defect Report, Traceability Matrix, Test Summary Report using Jira
- Test cases which can be automated Develop POM Classes, Utility Classes, Library files, Test Classes in Data Driven Framework using TestNG tool.
- Regression Testing, Cross Browser Testing, Analyzing Test Results and Reporting Defects.
- Maintenance of Automation Code and Resources. To execute pom.xml using Jenkins, GitHub, Maven Integration.
- Analyze Reports and log files to debug the code.
- Extracting all the defects identifying the open, retested, fixed defects.
- Understanding the requirements and communicating with BA team.
- Identified End to End Test Scenarios, Test Cases and Test Data.
- Performing Functional Testing, Regression Testing and Re-Testing.
- Active participation in weekly/daily status calls with the client.
- Identify the regression test cases for **Automation and** Scripts updation using **POM Classes** and Test Classes.

Project Name : Maha-DBT Post matric Scholarship
Domain : Educational

- **Roles and Responsibilities**

- Analyzing the requirement and communicating with **BA**.
- Creating the **test scenario** and **test cases** and execution of test cases.
- Inspects elements by using X-path and developed Automation test script.
- Creating **POM** Classes and test cases for the framework.
- Retesting defect fixes on each release build.
- Performed different types of **sanity**, **Functional**, **System Integration**, **regression Testing**.
- Designing and implementation of **TestNG framework** with **Webdriver**.
- Performed parametrization to implement **Data Driven Framework**.

I hereby declare that the above written particulars are true to the best of my knowledge and belief.
